

ResinLab®

AN ELLSWORTH ADHESIVES COMPANY 

Product
Spotlight
UR7024

ResinLab® UR7024 is a clear, two- part, polyurethane adhesive. This very fast curing formulation provides excellent adhesion to a broad range of substrates including polycarbonate, PVC, acrylic, ABS, wood, glass, and some metals. UR7024 is a very flexible adhesive providing toughness, high impact resistance, and high peel strengths. It is medium to low viscosity and has a 1:1 by volume mix ratio suitable for side-by-side cartridge dispensing.

UR7024 Features & Benefits:

- High flexibility providing high impact and peel strengths
- Fast room temperature cure
- Medium/low viscosity with 1:1 mix ratio for easy processing
- Excellent adhesion to many plastics especially polycarbonate & acrylic
- Clear bond lines

UR7024 Properties:

Viscosity	Gel Time
5,700 cps	5.5min
Hardness	Lap Shear PC/PC
90 Shore A	1,100 psi
Modulus	Elongation
3,000 psi	165%

UR7024

is available in:

50ml cartridges

400ml cartridges

Gallon kits

5 gallon pails
